

NO SHOW / CANCELLATION POLICY:

- Your regular attendance at therapy is very important for your rehabilitation, however if you have a rash, pink eye, head lice, fever, diarrhea or vomiting, we ask that you do not come for therapy. If you are at home and sick, you do not need to come to therapy that day. Please be aware that you must be fever free, rash free, no vomiting and no diarrhea for 24 hours. Please be sure to call ahead of time to let us know if you are ill.
- If you have anything that is contagious (person to person) such as head lice, pink eye, rash, you must have a Doctor's note to return to therapy.
- If you do not come for three appointments and you do not call ahead, it is our policy to discharge and require a new prescription from your physician to restart therapy.
- In addition, if you do not regularly attend scheduled therapy sessions, continuation of your care will be determined by clinic administration and your therapist.
- If you come 15 minutes late for an appointment, your care may not be provided that day as our therapists are scheduled with patients every 30 to 45 minutes.
- This scheduling procedure helps assure that all of our patients receive the time and attention they deserve.

WELLNESS FOR THE FAMILY:

- If your caregiver wants to leave our office while you are getting therapy we ask that they *stay on site* and return 15 minutes prior to the end of your session.
- If you are not completely independent with going to the bathroom you need to have a caregiver in the waiting room to assist you. If you are needing catheterization or a urinal please bring supplies and an assistant to help you with that.
- No siblings or other children are to be left unattended in our waiting room, clinic or outside.

UF&SHANDS IS A TEACHING HOSPITAL:

- Shands HealthCare is a teaching facility and you may be observed and/or treated by students. These students will be identified to you prior to the session. if you have any concerns about this you may speak to your therapist.
- If you have a significant change in medical status, a new diagnosis or have any procedure where you undergo anesthesia, we must get a new prescription, before you can return to therapy.

I have read the above policies and agree to work with Shands Rehab Center to meet my rehab needs:
